

Savor is a Food Robotics Company spun out of the Carnegie Mellon Robotics Institute with the vision to **AUTOMATE** the food service industry.

We've started by creating an automated food assembly robot for **GRAB-N-GO**, which is...

Automating the rest
So humans can be their best

2X
FASTER

1/2
COST

AVAILABLE
24/7

... than traditional labor

Use robotics to be
more efficient
and accomplish
new things.

Lower staff turnover
Scale workforce to meet
demand

Hire a Savor Robot!

No long term contract.

\$0 upfront.

Only pay if it works for you.

1min to load ingredients

Meals **assembled and packaged** at super human speed

Integrates with your **existing production line**

Come have lunch with
our robot and chat about
the future of food!
